5. Method of creating, signing and submitting the Form to the CySEC

After populating the required Excel fields in the Form, the Regulated Entities should name their Excel file in accordance to the following naming convention:

Username_yyyymmdd_QST-MC

The information below explains the naming convention:

- (1) **Username** – is the username of the TRS credentials, which should already be in the possession of the Regulated Entities, that have previously submitted any electronic file to the TRS system. This codification should be entered in capital letters. Regulated Entities, that have not previously requested the TRS credentials, can do so by referring [here](#), where further information is provided about the TRS.
- (2) **yyymmdd** – this denotes the end of the reporting period of the Form. In this case the Form should have a 20210930 format. Future forms will have different reporting periods.
- (3) **QST-MC** – this is the coding of the Form F that it remains unchanged and should be inserted exactly as it appears.
- (4) **The Excel® must be of 2007 version and onwards**. Excel will add the extension .xlsx as soon as it is saved. This extension should not under any circumstances be inserted manually.
