

## ANNOUNCEMENT

### **Warning regarding misleading emails that make reference to CySEC**

It has come to the attention of the Cyprus Securities and Exchange Commission ('CySEC') that various emails are being circulated, which appear to originate from a certain financial consulting company registered in Israel and falsely claim that CySEC endorses that particular company.

CySEC would like to stress that it does not recommend or promote the cooperation among any companies or professionals, and encourages the public not to take into consideration or be entrained by such emails.
