1. Introduction

This document presents the functions of the System to the end user who has access to CyTBOR as an 'Obligated Entity', with the exemption of credit and financial institutions, in accordance with Article 61C (12) (b) of the Prevention and Suppression of Money Laundering and Terrorist Financing Law of 2007, (188 (I) / 2007), as amended (the 'AML/CFT Law').

2. Horizontal Functions

2.1. Common Functions in Lists

From each list of entries¹ the functions presented in the table below are provided. It is noted that the activation of these functions is dynamic, ie whether they will be provided in a specific list (as well as how they are provided) is determined by the App Designer, through the design tools of the platform².

Mode	Button	Description
Quick search		By selecting the button from the list header, the system displays the criteria that can be used for quick search, and the user is asked to specify the search values and comparison operators. These criteria are always combined with an AND condition.
Pagination		By selecting the button from the list header, the system displays the record paging options. The user can choose to go to the next or previous page, to the last or the first, as well as to change the number of entries that will be displayed on each page.
Cleaning Filters		By selecting the button from the list header, the list searches for entries without search criteria (filters) or sorting options
Re-execution		Selecting the button from the list header repeats the record search, and the system displays the recordings again.
Quicksort	-	Clicking on the name of a column in the list sorts the records based on that column, initially in ascending order. Clicking again on the name sorts in descending order.
Advanced Search		Advanced search is enabled by selecting the "Search" function from the options menu right at the top of the list. The system displays on a pop up screen the search criteria that can be applied. The user determines the search values per criterion, the operator with which the search will be applied as well as the way (condition) in which the search criteria (AND - OR) will be combined. Note that for each field type, different comparison operators are provided (eg for a numeric field a "Like" operator that is typically applied to an alphanumeric field cannot be applied)
Advanced Classification		Advanced sorting is enabled by selecting the "Sort" function from the options menu right at the top of the list. The system displays in the pop up screen the fields with which sorting can be applied. The user determines the order of the fields with which the sorting will be applied (with drag & drop) as well as the sorting order (ascending / descending) per field.

Below are indicative screens of the system for the above functions with a red indicator for each function.

¹In case these functions have been activated

²For this reason they may not all be visible in all the application lists of this project

Advanced Sorting Field Defining Function

Advanced Search Filters Defining Function

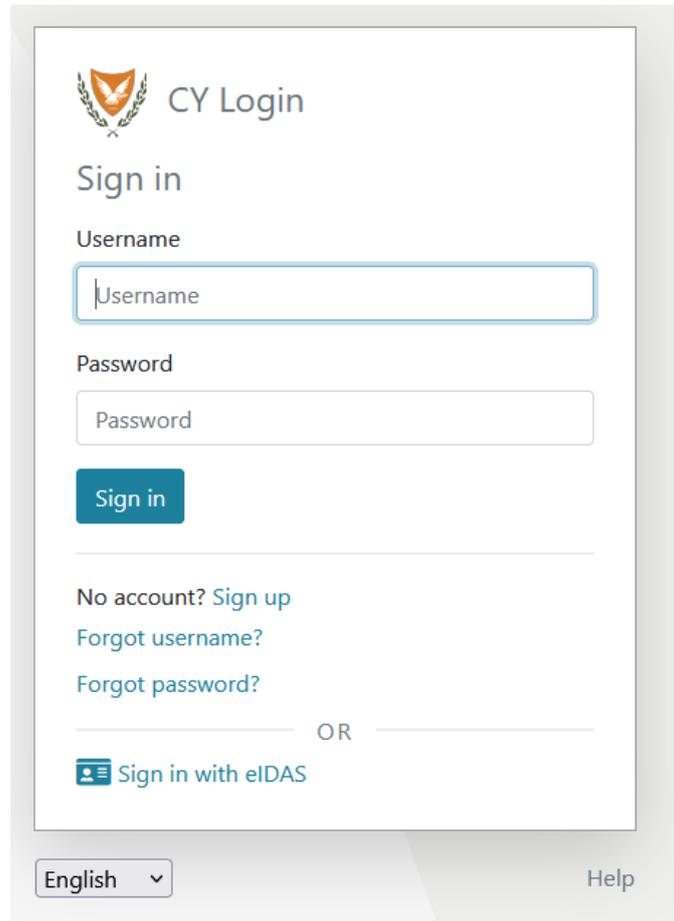

Advanced Sorting Field Defining Function

2.2. User Registration & Subscription Management functions

2.2.1. User Registration (Sign Up)

The user enters the system address (URL) and the system displays the login screen, where the user selects CY Login as the Digital Authentication service. The system refers the user to the relevant username & password page of CY Login so that he is authenticated.

CY Login Digital Authentication Page

Upon successful authentication, CY Login returns the user to the system, which searches for the user in its database. If it finds it, then it gives it access to the relevant applications (depending on its roles), if not, the system displays the user registration page of the platform. After the user provides the necessary information on the relevant forms, the system sends a relevant e-mail to activate the account. Also, if the user has chosen a role that requires the payment of the subscription, the relevant informative e-mail provides a notification for payment of the subscription.

A. User Registration Form (pop up)

The screenshot shows a user registration form for the Cyprus Securities & Exchange Commission. The form is a pop-up window with a dark background. At the top, the logo of the Cyprus Securities & Exchange Commission is displayed. Below the logo, there are several dropdown menus for selection: Organization (Cyprus Securities & Exchange Commission), Identity Provider (CY Login), Actor (with a dropdown menu open showing various roles), Email, Language, Theme, and Username. A 'Sign Up' button is located below the form fields. At the bottom of the form, there is a link that says 'Already have an account? Sign in here'. The footer of the form indicates it is powered by Node Server 4.01 and has a copyright notice for 2019.

User Registration Form

In the user registration form, the user must fill in the following information:

Field	Description
Organization	The organization (user group) to which the user wishes to register
Identity Provider	The Digital Authentication Service with which it wishes to be authenticated in the system <i>Note: The system displays the Digital Authentication Services to which the selected Organization is registered (Platform Authentication Service or connected LDAP Directories)</i>
Actor	The role in which the user wishes to register in the system <i>Note: The roles that appear in the selection list are those that the specific Organization has defined as directly accessible to external users (Public Actors)</i>
Subscription Policy	If subscription is required for the selected role, the user should select one of the available subscription policies provided by the system for that role (if only one is provided, then the field is not displayed, and is considered default by default)
Secondary Actor	The secondary role in which the user wishes to register with the system (field is displayed if such a feature is provided for the primary role)
Secondary Subscription Policy	If subscription is required for the selected sub-role, the user must select one of the available subscription policies provided by the system for the specific (sub-role) (if only one is provided, then the field is not displayed, and is considered default by default)
E-mail	The user's email address

	<i>Note: The above address should be unique to the system for the selected Organization and Digital Authentication Service</i>
Language	The presentation language of the system screens desired by the user
Username	The unique user ID from cyLogin. The field is locked and cannot be modified.
Person	Details of the registered user (see pop up B below)
Confirmation & Acknowledgment Messages	If required for the role (or roles) requested by the registered user to confirm or accept some data, similar messages are displayed in the form of a check box

Public roles available in the system (for external user):

Code	Name
C_NATURAL_LEGAL	Natural or legal person that can demonstrate a legitimate interest [Section 61C (12) (c) of the AML / CFT Law] or Natural or Legal Person on the basis of section 61C (12) (d) of the AML / CFT Law, other than Trustee or Obligated Entity.
C_OBLIGED_BANK	Credit or Financial Institution as an Obligated Entity according to section 2A of the AML / CFT Law
C_TRUSTEE	Trustee of an express trust or person holding an equivalent position in a legal arrangement similar to trust
C_OBLIGED	Obligated Entity according to section 2A of the AML / CFT Law (excluding Credit & Financial Institutions)
C_COMPETENT	Authorities / FIU, as per section 61C (12) (a) of the AML / CFT Law

B. Natural Entity Form (pop up)

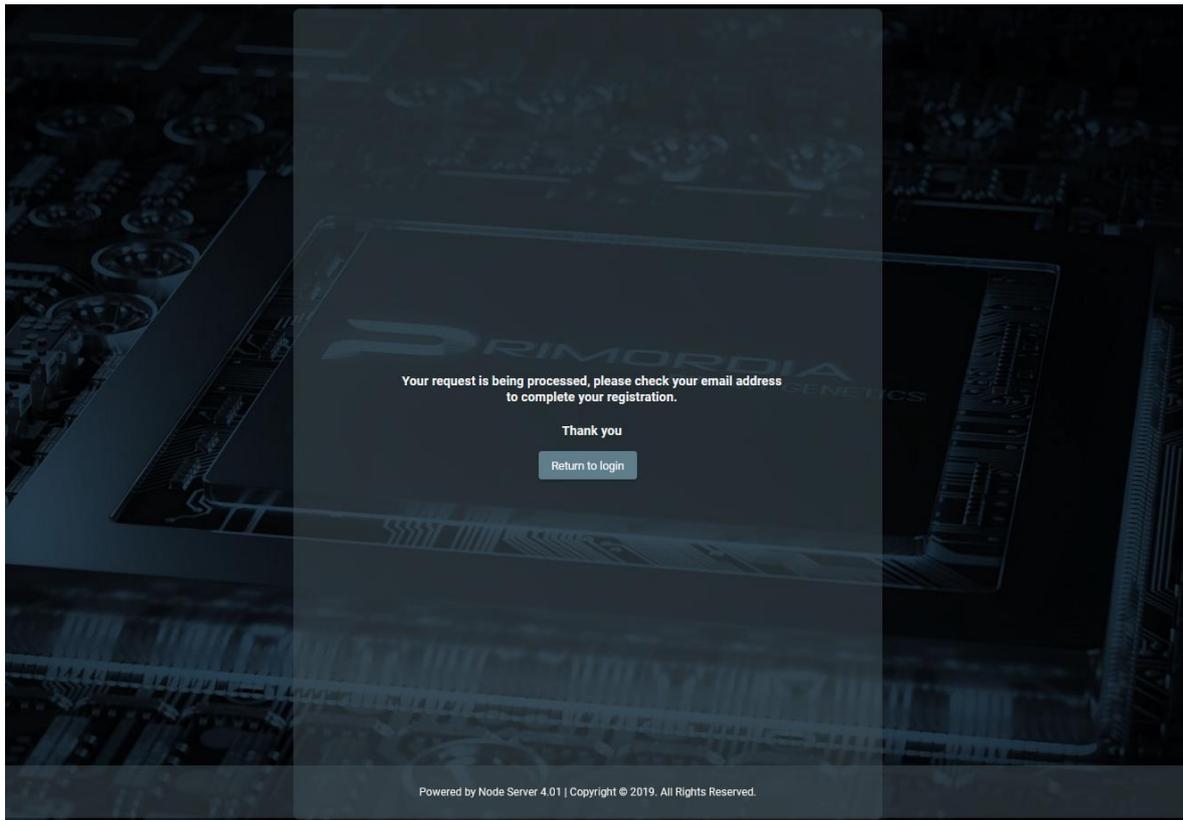

Individual Data Entry Form

In the Natural Person registration form the user must fill in the following information:

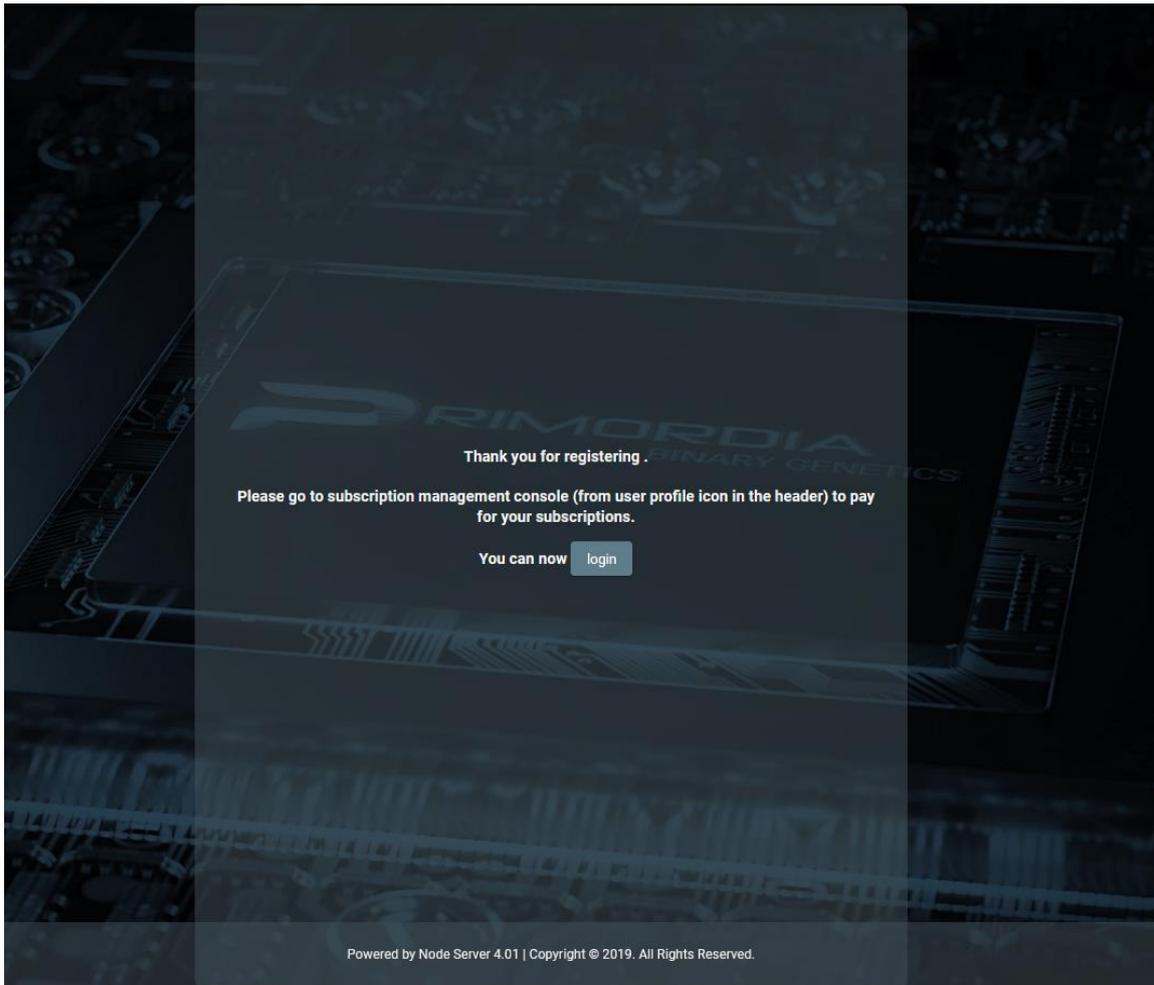

Field Name	Field Type	Shows up	Mandatory	Remarks
Person Section				
Name	Text field	YES	YES	Name
Surname	Text field	YES	YES	Last name
Work E-mail	E-mail field	YES	YES	Working E-Mail
I wish to register and act on behalf of a Legal Entity	Check box YES / NO (check box)	YES	YES	I wish to register and use the system on behalf of a Legal Entity <i>The field has a default value of NO. If YES value is selected, the fields related to the Legal Entity are also displayed</i>
Obligated Entity Type	Options menu with Obligated Entity Types	Under conditions	YES (if displayed)	Obligatory Entity Type <i>The field is displayed if an Obligated Entity role is selected (2 roles available). The options also change depending on the selected Obligated Entity role</i>
Select Competent Authority	Options menu with Competent Authorities (excluding CySec)	Under conditions	YES (if displayed)	Competent authority <i>The field is displayed if a Competent Authority role is selected</i>

Legal Entity Section	The whole section is displayed if YES value is selected in the field «I wish to register and act on behalf of a Legal Entity» Note: <i>If a Competent Authority role is selected the field is not displayed but the Person is automatically associated with the Legal Entity selected as a Competent Authority (all competent authorities have already been passed to the base as Legal Entities)</i>			
Full Legal Name	Text field	YES	YES	Full Name
Registration Number	Text field	YES	Under conditions	Registration number <i>The field is required if a role other than Competent Authority or Cysec is chosen</i>
Country of Registration	Menu options with database countries	YES	YES	Country of Registration <i>Depending on the role to be selected the field receives a default Cyprus value and locks</i>
City	Text field	YES	YES	City
Post Code	Text field	YES	YES	Postcodes
Address	Text field	YES	YES	Address
Number	Text field	YES	YES	Number (Street)
Tax ID	Text field	YES	YES	Tax Identification Number
AML / CFT Section	The whole section is displayed depending on the selected role			
Relevant AML / CFT Supervisory Authority	Options menu with available Supervisory Authorities	Under conditions	YES (if displayed)	AML / CFT Supervisory Authority <i>In the case of an Obligated Entity role the available options change depending on the Obligated Entity Type selected</i> <i>At the same time, the check box "Not in List" appears.</i>
Relevant AML / CFT Supervisory Authority	Text box	Under conditions	YES (if displayed)	AML / CFT Supervisory Authority <i>The field is displayed if a YES value is selected in the Not in List check box</i>
Country of AML / CFT Supervisory Authority	Menu options with database countries	Under conditions	YES (if displayed)	Country of AML / CFT Surveillance Authority <i>The field is displayed if a YES value is selected in the Not in List check box</i>
License Number by AML / CFT Supervisory Authority	Text field	Under conditions	YES (if displayed)	License Number from AML / CFT Supervisory Authority <i>The field is displayed when the section is displayed</i>

Email Confirmation Message. Complete User Registration

2.2.2. Subscription Payment

If a subscription fee is required for the role the user has taken on, the user should select the Account function  from the header of the screen, and then the Subscriptions function from the options menu. In such a case, the system displays the list of Subscriptions available to the user, where the user can select the Pay function from the options menu at the recordset level of an unpaid payment. When the Pay function is activated, the system refers the user to the relevant page of the Payment Gateway (JCC) used, so that he can provide his credit card details and complete the payment of the subscription.

Subscription Screen - Subscription Payment Mode

If the transaction is approved, a purchase for 250.00 EUR will appear in your bank statement under the name PAPAIOANNOU ANDREAS

Card Number :

Expiry Date (Month / Year) :

SUBMIT

[Cancel and return to Merchant's website](#)

Session Timeout
04:53

JCC Payment Form

If the selected subscription does not require payment, or has been paid or is no longer active, the system does not display the Pay function in the options menu

Upon completion of the subscription payment, the system registers an entry in the user's payment table and activates the system functions to which the selected role relates

2.2.3. Subscription Management

To manage its subscriptions, the user selects the Account function  from the header of the screen, and then the Subscriptions function from the options menu. In such a case, the system displays the list of Subscriptions available to the user, for all the roles (actors) available:

- Subscriptions whose "synthetic" state is inactive are shown in gray (see below).
- For each subscription, its components are displayed (see notes), while the last card shows the total of subscription components that include all user subscriptions (as well as the total of credits and those that have been spent).
- The user can filter the data of each card based on the "synthetic" status of the subscription (and the type for the last card).
- The user can filter the card data by selecting an actor from the screen header.

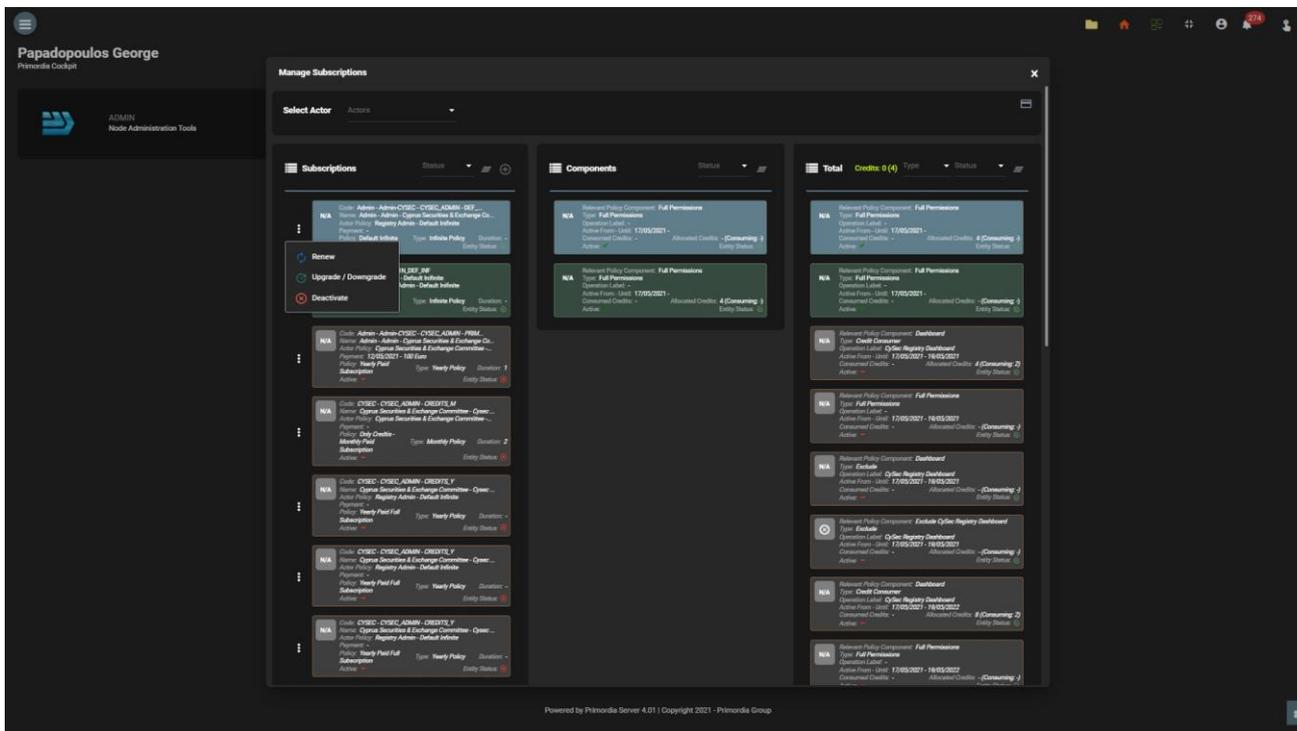

To renew a subscription, the user must select the Renew action from the options menu at the recordset level of a subscription (which is "active"). In such a case, the system displays a pop up screen which shows only the selected subscription and check box for keeping the credits locked with the value NO (NAI is not provided for the ECC). The user selects values and presses proceed. If the subscription involves payment, the system refers to the JCC to complete the payment. After the payment is completed, the system creates a new "active" subscription and deactivates the previous one.

To upgrade a subscription, the user must select the Upgrade / Downgrade action from the options menu at the recordset level of a subscription (which is "active"). In such a case, the system displays a pop up screen in which the user is asked to select a new subscription (compatible with his role) as well as if he wants to keep the credits of the previous subscription (locked NO value). The user selects values and presses Proceed. If the new subscription involves payment, the system refers the user to the JCC to complete the payment. After completing the payment, the system creates a new subscription and keeps the previous one active. If he has not paid the new subscription, the user can pay for it at a later stage (in this case, the subscription appears as "inactive").

To cancel a subscription, the user must select the Cancel action from the options menu at the recordset level of a subscription (which is "inactive"). In such a case, the system permanently deletes the subscription.

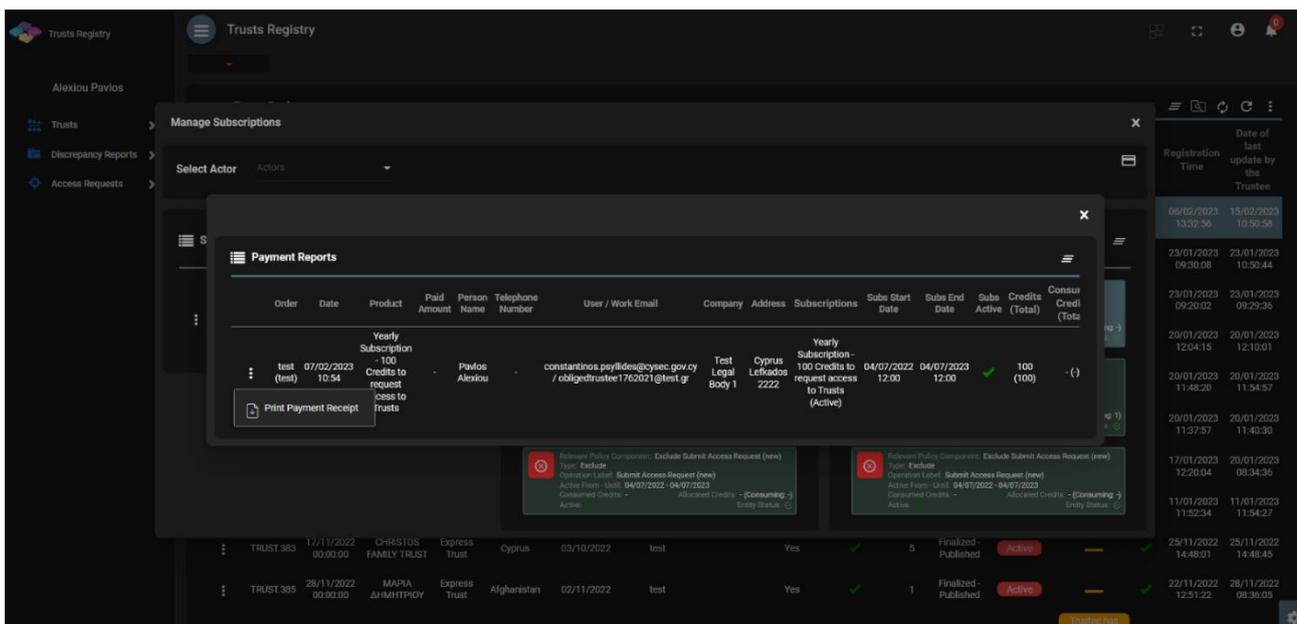

To deactivate a subscription, the user must select the Deactivate action from the options menu at the recordset level of a subscription (which is marked as active (entity status)). In such a case, the system changes the marking to "inactive".

To activate a subscription, the user must select the Activate action from the options menu at the recordset level of a subscription (which is marked as "inactive" (entity status)). In such a case, the system changes the marking to "active".

User Subscription Management Screen

The user can see the completed payments with the button 'Payments'. In this report the user is able to download the payment receipt from each record.

Payment Report Screen

Subscription Components: Each subscription (at its design) may contain the following components:

- Full permissions: Means that the user can access all the functions that are defined as available for the specific role (actor).
- Credit consumer: It means that for a specific function the user must have credits to perform it.
- Exclude: Means that a specific function is not provided to the user unless it has a credits consumer component for it.

Preservation of credits: It is a function for the option of transferring the (remaining) credits of an existing subscription to a new one. It is not provided as a function in the case of ECC.

Real Subscription Status: In order for a subscription to be active, you must:

- If it has a validity period, the current date must be within the validity period
- Must be entity_status = active (system status for all admin entities)
- If it contains a payment, it must have been repaid

A subscription that is about to expire (within 10 days) flashes on the screen.

3. Access by Obligated Entities, excluding credit institutions and financial institutions, in accordance with section 61C (12) (b) of the AML / CFT Law

3.1. Menus

Upon entering the application, the user has access to the following data directories (menu on the left):

Menu	Description
Trusts Registry	This directory presents the latest editions of Active Registry Trusts that have been published. This list is essentially about the Register of Trusts.
Accessible Trusts	This directory presents all the latest versions of the active Registry Trusts that have been published, for Trusts that have been accessed by the user by approving an access request
Registration Exemption Requests	This list presents all the Requests for Exemption of Trust from the Register that have been confirmed by the Cyprus Securities and Exchange Commission.
Deleted Trusts	This list presents the Trusts that have been deleted from the Register.
Suspended Trusts	This list presents the Trusts that have been suspended.
My Discrepancy Reports	This directory presents the Discrepancy Reports submitted by a user.
My Access Requests	This directory presents the Trust Access Requests entered by a user.

The following are indicative screens of the application directories:

The screenshot displays the 'Trusts Registry' interface. On the left, there is a navigation menu with options: Trusts, Trust Registry, Accessible Trusts, Registration Exemption Requests, Deleted Trusts, Suspended Trusts, Discrepancy Reports, and Access Requests. The main area shows a table with the following columns: Beneficial Ownership Registry ID, Registry Entry Date, Trust Name, Trust Type, Country of Establishment, Registration Date, Governing Law, Termination Date, Controlling Interest, Overdue Registration, Version No, Trust Version Status, Trust Status, Note, Registration Time, Registered by User, and Date of last update by the Trustee. The table contains 20 rows of trust records.

List of My Access Requests

From the above directories, the following functions are provided (per directory):

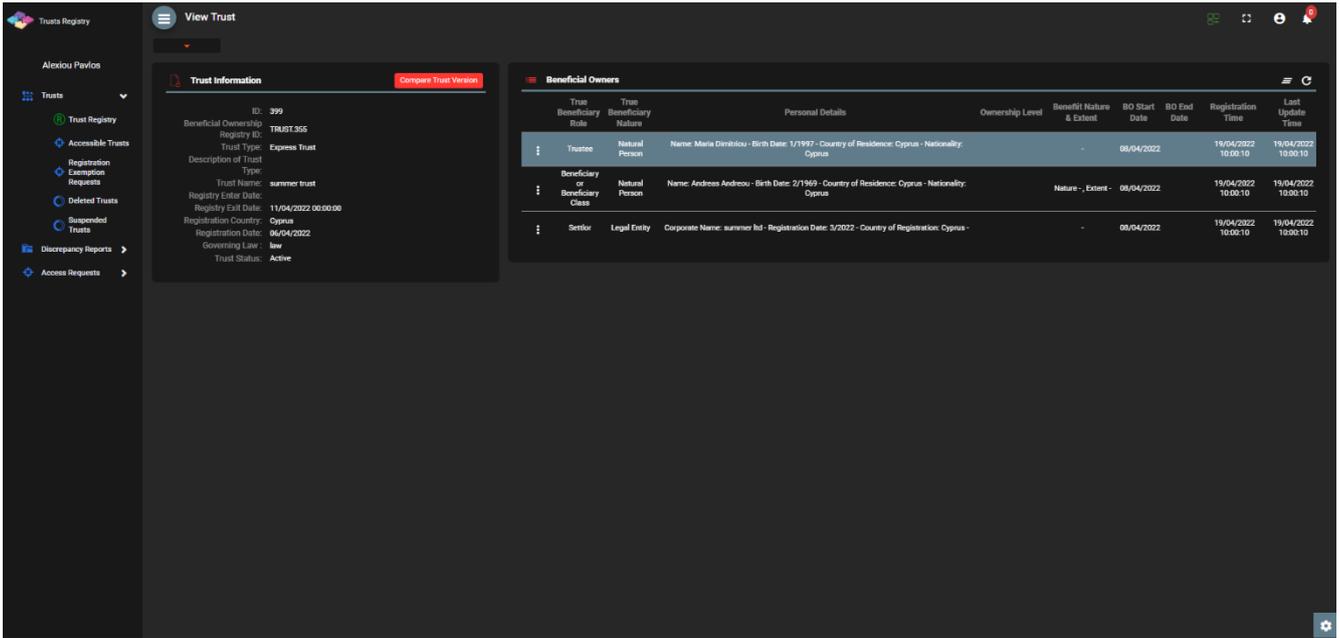

Menu	Mode	Position	Reference
Trusts Registry	Request Access by Trustee (Registration of Access Request with direct correlation with Trust) <i>Allowed only if the selected Trust is active in the Registry (ie not Suspended)</i>	Recordset	Chapter 3.4.1
	File a Report (Discrepancy Report Entry)	Recordset	Chapter 3.3.1
Accessible Trusts	View Trust (Confidence Data Overview) <i>Please note that when accessed by Obligated Entities (excluding financial & credit institutions) and Natural / Legal Person, the list of Beneficial Owners presents only the data for which no access exemption has been requested (unlike in the case of credit or financial institutions as obligated entities show all relevant data).</i>	Recordset	Chapter 3.2.1
My Discrepancy Reports	Edit Report (Discrepancy Report Entry) <i>Allowed only if the report is in Draft mode</i>	Recordset	Chapter 3.3.1
	Submit Report (Submission of Discrepancy Report) <i>Allowed only if the report is in Draft mode</i>	Recordset	Chapter 3.3.2
	Cancel Report (Cancellation of Discrepancy Report) <i>Allowed only if the report is in Draft mode</i>	Recordset	Chapter 3.3.3
My Access Requests	Submit (Submit Request for Access) <i>Allowed only if the request is in Draft mode</i>	Recordset	Chapter 3.4.2
	Edit (Submission of Discrepancy Report in edit mode) <i>Allowed only if the request is in Draft mode</i>	Recordset	Chapter 3.3.1
	Delete (Delete Access Request) <i>Allowed only if the request is in Draft mode</i>	Recordset	Chapter 3.4.3

Provided Functions at Trust level per Directory

3.2. Registry Trust Management

3.2.1. View Trust

The purpose of this function is to present to the user the detailed information (File) of a Trust (meaning that this Trust has been granted access to the user and an Access Exemption Request is not approved). The function is provided through the list of Accessible Trusts, therefore restricts access to the data of the Real Beneficiaries to what the user can see (ie does not provide access to the detailed tabs of the real beneficiaries).

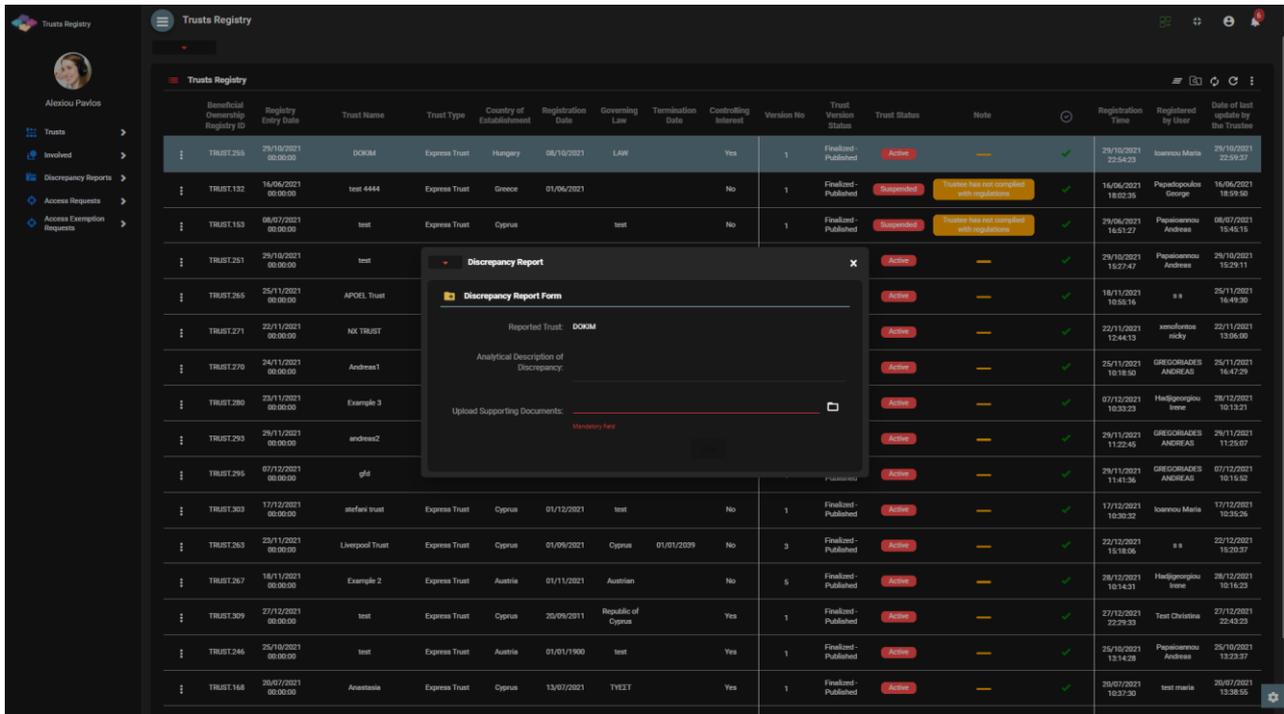

Trust (File) overview screen

3.3. Discrepancy Report Management

3.3.1. File a Report

This function involves the registration of a Discrepancy Report by an appropriately authorized user.

Discrepancy Report Entry Screen (File a Report)

To enter a Discrepancy Report, the user must complete the following information:

Field Name	Field Type	Shows up	Mandatory	Remarks
Reported Trust	-	YES	-	Name of the Trust mentioned
Analytical Description of Discrepancy	Text field	YES	NO	Detailed description of Discrepancy
Upload Supporting Document	Select file from disk	YES	YES	Loading support document

The above card and function is also used in case the user wishes to update the details of the Discrepancy Report (edit form) from the My Discrepancy Reports directory.

The new Discrepancy Report entry is accessible from the "My Discrepancy Reports" directory

3.3.2. Submit Report

The purpose of this function is to submit a Discrepancy Report by the user who has registered it. When the function is activated, the system updates the status of the report to Submitted and sends a relevant notification notification to all users who have the role of Cysec Internal User or Cysec Registry Administrator.

The operation is performed in the background and has no screen.

The above function is allowed only if the selected Discrepancy Report is in Draft mode.

The report is now accessible by the Cysec Internal User and Cysec Registry Administrator roles for audit.

3.3.3. Cancel Report Cancel Report

The purpose of this function is to cancel (physically delete) a Discrepancy Report by the user who has registered it.

The operation is performed in the background and has no screen.

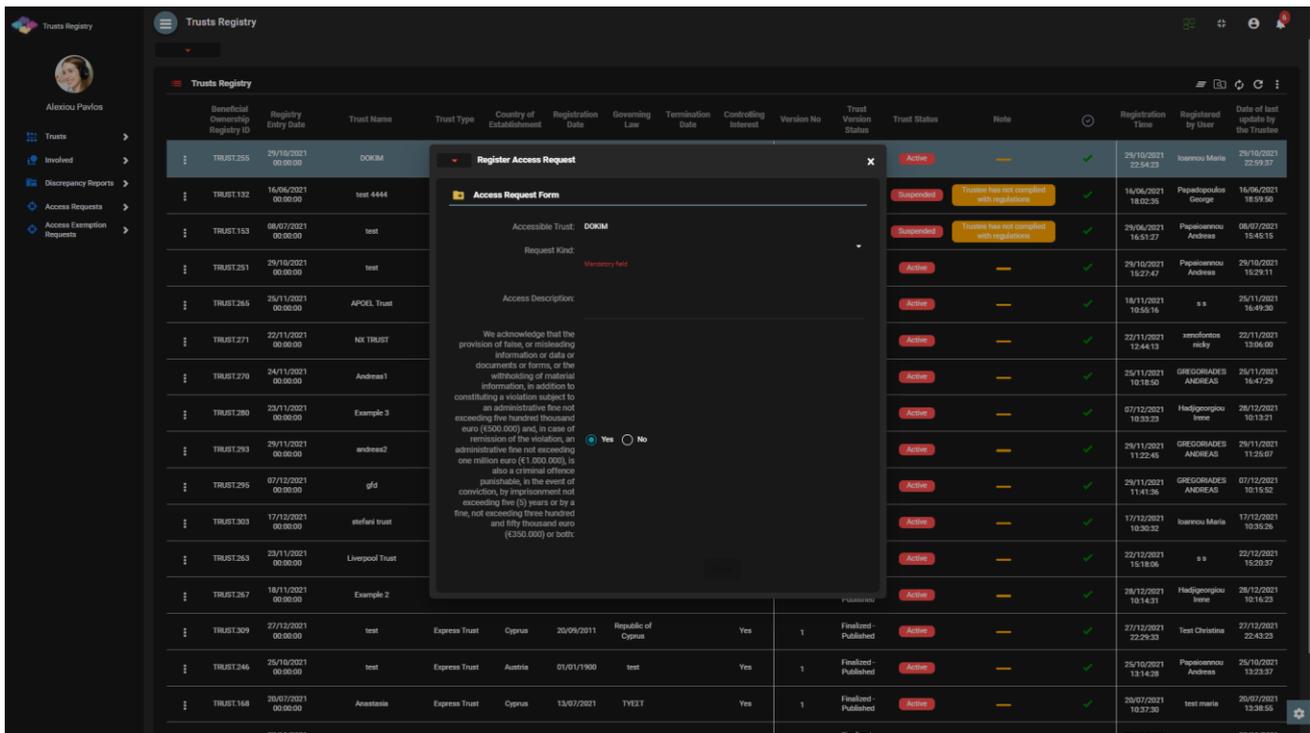

The above function is allowed only if the selected Discrepancy Report is in Draft mode

3.4. Access Request Management

3.4.1. Submit Request Access by Trustee

The purpose of the Function is to enter an Access Request for a Trust from the Register Trusts list, by a duly authorized user. It concerns requests such as "There is a business relationship with an express trust or similar legal arrangement", which require confirmation from the trustee of the trust.

Trust Access Request Entry Screen

To enter a Trust Access Request, the user must fill in the following information:

Field Name	Field Type	Shows up	Mandatory	Remarks
Accessible Trust	-	YES	-	Name of relevant Trust
Request Kind	Default τιμή: There is a business relationship with an express trust or similar legal arrangement »	YES	YES	Request Type
Access Description	Text field	YES	NO	Request description
We acknowledge that the provision of false, or misleading information or data or documents or forms, or the withholding of material information, in addition to constituting a violation subject to an administrative fine not exceeding five hundred thousand euro (€ 500.000) and, in case of remission of the violation, an administrative fine not exceeding one million	Confirmation message	YES	YES	Confirmation <i>The field receives a default NAI value</i>

euro (€ 1.000.000), is also a criminal offence punishable, in the event of conviction, by imprisonment not exceeding five (5) years or by a fine, not exceeding three hundred and fifty thousand euro (€ 350,000) or both				
---	--	--	--	--

The above card and function is also used in case the user wishes to update the details of the Access Request (edit form) or to have easy access to them (view form).

The new Access Request registration is accessible from the "My Access Requests" directory.

3.4.2. Submit Request for Access (Submit)

The purpose of the Function is to submit an Access Request from the user who has registered it. When the function is activated, the system displays an action confirmation pop up and in case of confirmation, changes the status of the request to "Submitted" and sends a relevant notification notification to all users who have the role of Cysec Internal User or Cysec Registry Administrator, as well as to Trustee of the relevant trust.

The above function is allowed only if the selected Access Request is in Draft mode.

Submitting an Access Request is a function that consumes Credits in the relevant Subscription.

The access request is submitted to the Trustee (list of Incoming Requests) managed by the said Trust, in order to proceed with its control.

3.4.3. Delete Request for Access (Delete)

The purpose of the Function is the (physical) deletion of an Access Request by the user who has registered it.

The above operation is allowed only if the selected Trust is in Draft mode.

The request is deleted "of course" from the database.
